

LETTER OF PEACE AMBASSADORS

Do you sometimes feel (like us), that you're only living (in) the future? We dream about who we'll become and how we'll change the world, but the actual fight for a better tomorrow leave for later, for when we're adults.

Meanwhile war, suffering, loneliness and fear made themselves comfortable in our everyday.

That's why today, now **WE, THE YOUNG GENERATION vehemently start THE FIGHT – THE FIGHT FOR PEACE!**

We don't want to lose something to appreciate it afterwards. We want to love and be loved, have the right to study, learn about the world and develop our talents and passions.

Dear adults, stand with us. Show that, just like us, you don't accept the hatred, divisions and battles.

The fight for peace is every minute of our lives.

We win when we aren't ignorant to suffering, fighting for the rights of every human being.

We win when we treat each other with respect and kindness no matter the situation we're in.

We win when we create a safe space without judgement but support and permission to learn and make mistakes.

We win when we listen and accept each other even though we might be very different.

We win when we fight for our values, not letting others determine whether we can or cannot do something or make a difference.

We win when we're not alone.

Dear friends, wherever you are, know that there are people who care about you. People that think about you and all the things that the war is taking away from you.

Wherever and however we can, we will fight for you.

Because not only we believe in a better world but we build it every day by little things.

That's why if you're like us and feel that something has to be done stand with us.

**IF WE HAVE TO FIGHT – ONLY FOR PEACE.
BECAUSE PEACE IS THE MISSION OF ALL OF US!**
